

Date: January 8, 2008  
Reference: PI-903-08

To whom it may concern:

Pointer Telocation Ltd. is a global provider of services and technological solutions designed for the insurance industry and automotive business field. Its product division – Cellocator – is a leading telematics manufacturer and supplier of AVL (Automotive Vehicle Location) technology and fleet management solutions. Cellocator's state-of-the-art wireless communication and location technology complements Pointer's services, making Pointer the one-stop-shop for all-inclusive automotive services and technologies.

I hereby confirm that **Mobiliz Inc.** is the only partner of Pointer/Cellocator in Turkey and has the exclusive rights of importing Cellocator products.
